(Attn: Careers Master/Mistress)

15 June 2006

Dear Principal,

Seminar on the New 2007 Curriculum of the Faculty of Science, HKU

Starting from the academic year 2007/08, the Faculty of Science of the University of Hong Kong will introduce a new curriculum structure to its Bachelor of Science degree. In replacement of the current admission policy, a new faculty-wide admission will be introduced in the undergraduate level, under which all prospective students of the 14 science disciplines will be admitted under one single foundation program. This curriculum is believed to allow a more flexible structure in the Faculty and it paves way for the new 4-year university education in the future.

To fully get hold of this new development in tertiary science education, we are pleased to invite you to attend a seminar entitled “A New Era of Science Education: from University Admission Policy to New Curriculum Structure” organized by the Faculty of Science and co-organized by our association as well as the Hong Kong Association for Science and Mathematics Education. The details of this seminar are as follows:

Date: 7 July 2006 (Friday)

Time: 3:00 – 6:00 pm

Venue: Hui Pun Hing Lecture Hall (LE 1), Library Extension, HKU

Content: Presentation by Panel speakers, Q&A session, Sharing Session and Tea Reception

If you wish to enroll in this seminar, please complete the online registration at www.hku.hk/ssst/seminarJuly06 **before 30 June 2006**. Seats will be allocated on a first-come-first served basis, and all successful applications will be notified by e-mail. From the perspective of careers teachers, our Association will express our views and concern regarding the new development, and thus we cordially invite principals and careers teachers to send us questions or comments by e-mail at hkacmgm@gmail.com.

Yours sincerely,

(Dr. Ho Yuk-fan)
Chairperson
