(i) 4X + 1 Best Elective

The 4 core subjects including Chinese Language, English Language, Mathematics and Liberal Studies, plus the "best" elective subject (after subject weighting has been applied) will be taken into account.

Example:

HKDSE Subjects	Level Attainment (Converted Point for Subject Score Calculation)*	Subject Weighting [^]	Subject Score	Subjects Contributed in Admission Score Calculation
Core				
Chinese	5 (5)	7	35	Yes
English	3 (3)	7	21	Yes

* For the purpose of calculating the admission scores, HKDSE level attainments will be converted to level points where Level 5th=7, 5th=6, 5th=5, 4th=4, 3rd=3, 2nd=2, 1st=1 and Unclassified = 0.

[^] All relevant subjects will be given a weighting in the calculation of admission scores. You may refer to the respective programme entries for a list of subjects with the highest weighting. Core subjects as specified in the University General Entrance Requirements will be given a weighting of at least 7 whilst preferred subjects will be given a weighting of 10. All other subjects (including relevant Applied Learning subjects) will be given a weighting of at least 5.

[#] Preferred subject of the programme concerned.

All relevant subjects will be given a weighting in the calculation of admission scores. You may refer to the respective programme entries for a list of subjects with the highest weighting. **Core subjects** as specified in the University General Entrance Requirements will be given a weighting of at least 7 whilst **preferred subjects** will be given a weighting of 10. All **other subjects** (including relevant Applied Learning subjects) will be given a weighting of at least 5.

Handling of Extended Modules of Mathematics

Programmes which have specified the Extended Modules of Mathematics (i.e. M1 or M2) as subjects with the highest weighting, if the weighted subject score of M1 or M2 is higher than that of the "best weighted elective" under the "4X + 1" model, or the "last best weighted subject" under models (ii) and (iii) above, the "best weighted elective" or the "last best weighted subject", and M1 or M2 will each carry 50% weight in the admission score calculation.
